### Switchboard upgrade + 6.6 kW solar + Powerwall + EV charger

Thanks for having me around on Monday, Mark. Here's the full quote for the upgrade — I've kept each component on its own line so you can stage the solar or the EV charger later if you want. The switchboard upgrade is the one piece that can't wait — your existing board is undersized for anything we add on top. Any questions, give me a call.

|                     |            |
|---------------------|------------|
| SWITCHBOARD UPGRADE | \$3,200.00 |
|---------------------|------------|

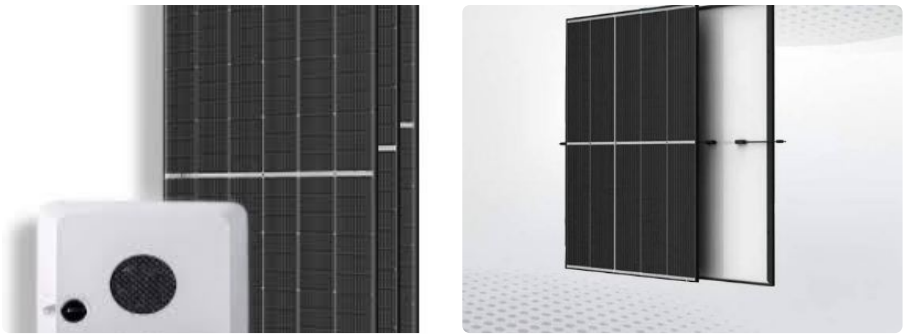

Replace existing single-phase board with 24-pole metered enclosure, RCBOs on every circuit, Type 2 surge protection, main switch upgrade to 100A, all circuits re-identified, labelled and tested, Energy Safe Victoria compliance certificate issued.

|                        |            |
|------------------------|------------|
| 6.6 KW SOLAR PV SYSTEM | \$7,400.00 |
|------------------------|------------|

15 x Trina Vertex-S 440W panels, Fronius Primo 5.0 inverter, Tigo TS4-A-O optimisers on shaded panels, pitched tin roof mounting with sealed penetrations, DC isolators at panels and inverter, 10-year parts &

workmanship warranty.

---

HOME BATTERY — TESLA POWERWALL 3

\$12,800.00

---

Tesla Powerwall 3 (13.5 kWh usable), gateway installed in garage, backup wiring to essentials sub-circuit (fridge, lights, modem, one powerpoint per room), Tesla app configured for solar-first self-consumption with grid backup.

---

EV CHARGER INSTALL

\$1,900.00

---

Tesla Wall Connector (Type 2, 7 kW single-phase), hardwired to a dedicated 32A circuit on the upgraded board, 10 m cable, mounted beside garage door, outdoor-rated enclosure, final commissioning with your Tesla account.

---

REBATES & GRID CONNECTION

\$600.00

---

Process STC application on your behalf (approx. \$3,100 rebate credited to final invoice at point of sale), Powercor solar connection and NMI update, Clean Energy Council paperwork, system registration and final sign-off.

|          |             |
|----------|-------------|
| Subtotal | \$25,900.00 |
| GST      | \$2,590.00  |
| <hr/>    |             |
| Total    | \$28,490.00 |

## BANK DETAILS

|              |                         |
|--------------|-------------------------|
| Bank         | ANZ                     |
| Account Name | Current Edge Electrical |
| BSB          | 013-355                 |

## YOU CAN RELY ON CURRENT EDGE ELECTRICAL

- ✓ NECA Member  
National Electrical and Communications Association
- ✓ A-Grade licensed electrician  
REC 24567 · Energy Safe Victoria registered
- ✓ 10-year workmanship warranty  
Panels 25yr performance · Powerwall 10yr · Inverter 10yr
- ✓ Clean Energy Council Approved Retailer  
And Approved Solar Installer · CEC-A24567
- ✓ Master Electricians Australia certified  
Code of Ethics member since 2017

## TERMS AND CONDITIONS

This quote is valid for 30 days from the date above. Prices are in Australian dollars and include GST. The STC rebate (currently ~\$3,100 for a 6.6 kW system in postcode 3161) is assigned to Current Edge Electrical under Rebate Option 2 and credited to your final invoice at point of sale. Rebate values change quarterly; the final rebate is confirmed on install date.

A 20% deposit secures your install date (typically 3–4 weeks out). Balance is due within 7 days of commissioning. Powercor grid-connection approval can take 1–8 weeks and is outside our control; the system operates in self-consumption mode until approved.

Workmanship on all electrical install work carries a 10-year warranty from the compliance certificate date. Manufacturer warranties pass through on hardware (Trina panels 25yr performance / 15yr product, Fronius 10yr standard, Tesla Powerwall 10yr, Tesla Wall Connector 4yr). All warranty claims are handled by Current Edge as a single point of contact.

If the switchboard upgrade uncovers non-compliant existing wiring (sub-mains, bonding, undersized earth) beyond scope, we quote the remediation separately before proceeding. Any discovery that affects compliance is reported in writing with photos and a fixed-price quote within 2 business days.
